

# OTHER PLANT SUPPORTS

## STYLISH AND REUSABLE

The items on this page are not made of bamboo. That does not mean they are any less suited being used as support for your plants. The sizes that are displayed with the items are our most popular ones, but we can also customize them to any length and thickness.

### Moss Pole

This type of plant support is very much sought-after right now. The stake is stylish and suits the color of green plants, while having a natural look at the same time. The poles are available with a plastic or wooden pole. The top is hollow, so it is possible to stack multiple poles on top of each other.

Length	Diameter
40 cm	32 mm
50 cm	32 mm
60 cm	32 mm
80 cm	32 mm
100 cm	32 mm
120 cm	32 mm
150 cm	32 mm
100 cm	50 mm
120 cm	50 mm
150 cm	50 mm

### Fiberglass Stakes

This type of stake is durable because it can be used multiple times. Fiberglass is mold and weather resistant and therefore ideal for outdoor use. The stakes can be made with a UV resistant veil or reflective sleeve. Other options are available, contact your account manager for more information.

Diameter between 4 mm and 50 mm. Length between 90 cm and 300 cm.
